The Daily Register received the following from one of its readers which tells its own story:

City, May 19. Editor Daily Register - Sir There's no ghost of a doubt but you've heard the expressions, "It's all in imagination," "There's millions in it" and others of oodles of "ring" around it? Poor correstantly. What I meant to say. similarity. What I meant to say then, is that your "Bend" pencil they have in the "Bend."

puzzling questions a more serious one bobs up in my mind: Why DOUBTING THOMAS will the vendors of this imagina-tion-giving vin take a chance on such a law-abiding citizen as a newspaper correspondent must be? ANOTHER GAME

in Check by 13 to 3

The Eastern Normal base ball team again came out at the big end of the horn, crossing bats with the Lancaster team Thurs day. Eastern slaughtered them to the tune of 13 to 3.

Lackey pitched a high brand of ball, allowing only four hits. His drop and underhand ball seemed to have them guessing. Hi strikeout record reached eigth and he did not hit or walk a man. The other half of the battery in Fox was equally as good. His handling of foul flies is the best ever seen here this season. He pulled down one from Miller's bat after a hard run in the fourth in ning. A nice catch by Dunaway cut off a hit in the first. Not too much can be said of the work of Mainous at the hot corner. He has played through the last three games in spite of a broken thumb in three places. He is going at a great clip, batting 1000 per cent n Wednesday and Thursday games. Combs smashed one pas the tennis courts for four bases in the fourth. This is his second in the last two days, making one for the legion boys in their game Dunaway collected three hits in the same number of times up, one going for three bases.

The big inning for Normal was the fourth in which sixteen men faced the Lancaster pitchers Two men, Rice and Dunaway made two hits in this big inning Nine hits combined wth four errors and two bases on balls to-

bree. He has shown the boys their weaknesses and helped them correct them. He had developed several hidden stars. He made quite a record while he attended school here in his younger days and all are delighted to hear of his re-election to the same position for the coming year. The

Mothers! Give The Little Ones Syrup Pepsin

They like Dr. Caldwell's, and it quickly relieves their constipation and headaches.

REGIN to teach the child regular daily elimination as young as possible, and much constipation will be avoided later in life. The most convenient hour throughout life is immediately upon arising. It does not then interfere with play, school or work.

When in spite of your efforts a member of the family becomes constipated, give Dr. Caldwell's Syrup Pepsin in the size dose directed on the bottle. It is a mild, gentle laxative safe for young babies; effective for grownups. It is the largest selling liquid laxative in the world, and most economical as a sixty cent bottle will last you many months.

For your information, Dr. Caldwell's Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. Value to You of an Advertising Agency

You're in business. You're putting up a line of trademarked goods, we will say. You want to sell them.

You send out salesmen. They get distribution for you. Your goods are on the dealers' shelves.

Now you need advertising-to interest the consumer-to make Mrs. Smith or Mr. Jones ask for your goods by name-to say, for instance, "I want a can of BROWN'S Beans" instead of "I want a can of beans."

Two courses open to you: You either undertake to prepare and place your own advertising or you shove the whole job on an advertising agency.

If YOU undertake to do it, you first select your papers. Suppose you are going to use 100 papers. What papers? If you haven't a newspaper directory, you have to borrow or buy one. You write to the paper for rates.

After you've picked your papers, you write your ads, employ an artist to make drawings for the illustrations, employ an engraver to make original plates, employ an electrotyper to make duplicate plates, employ a printer to set the ads to secure uniform strong typographical displays; then you mail the proofs and plates to each paper with instructions when to insert; after that you have to search thru the papers to be sure the ads appeared, and if they did, you have to open accounts with 100 papers and mail 100 checks each month while the advertising is running.

You and your office force have done loads of tiresome work and worry that an advertising agency would have done without charge. Thru an advertising agency you pay exactly the rates you pay publishers direct. The agency gets its remuneration in the shape of a small commission from the publishers -- a commission they are only too willing to pay because agency service saves them labor and expense.

An advertising agency prepares the ads and, after being OK'd by you, forwards them for insertion, checks up their appearance in the publications. All you have to do is to pay ONE bill to the agency each month.

Besides, the agency gives you, free, the benefit of its expert knowledge of merchandising methods. It analyses your business. It decides before accepting your account whether you are really ready to advertise.

The agency is your representative—just as much so as your salesman.

Most of the successful interstate and national advertising is placed thru advertising agencies.

The nine advertising agencies listed below comprise the Southern Council of the American Association of Advertising Agencies. Write to the agency you prefer and get the benefit of its advice, organization and equipment:

"Statistics show a membership of 401,400, an increase of 54,276 over the year 1919-1920. Of this ncrease 39,500 are in young peoole's organizations. The report shows 49 new women's societies and 1,239 new young people's organizations. The secretary for missionary education for the oard reports 2,050 mission roups for the year."

Work Among Negroes

The need for exansion in the work of the Presbyterian church among the negroes is shown by Dr. S. J. Fisher, president of the Presbyterian Board of Missions for Freedmen, in his annual report to the General Assembly. Dr. Fisher says in part:

"Never has there been more applications for enrollment in our schools, or a greater interest in the education by the negroes of the south. At Arkadelphia, Arkansas, a \$25,000 dormitory for boys has been erected, most of the expense being defeated by a gen-orous friend of our work. "At Boggs Acadamy, Keysville, Ga., a boys' dormitory, also costing \$25,000 has been finished and

DEMEMBER to ask your grocer for Calumet Baking Powder and be sure that you get it -the Indian Head on the orange label.

Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods.

It never varies in quality— And now remember, you always use less than of most other brands because it possesses greater leavening strength.

There is no waste. If a recipe calls for one egg - two cups of flour - half a cup of milk - that's all you use. You never have to re-bake.

Calumet is absolutely sure. In any baking-any time, whether the can has just been opened or whether it is the last spoonful.

Contains only such ingredients as have been officially approved by U.S. Food Authorities - and is the product of the world's largest, most sanitary Baking Powder Factories.

Gluten gives flour a good part of its food value—the element that nourishes the body. To be sure of getting it, use only pure baking powder with plain flour, (not self-rising flour).
